

Your kids are having fun... at the dentist's?

The HealthReach Dental Center for Children has everything a child needs for a happy, healthy smile.

Jennifer Aitken, DMD, uses a treatment technique called **“tell, show, do,”** that wins the child's confidence and makes the visit pleasant and productive

For example, children learn proper brushing technique by cleaning the teeth of **Tookie Turtle**, a two-foot tall hand puppet.

Each chair has its own television monitor so kids can watch current “G” movies or – what's more popular – **a tongue's-eye view** of their teeth via our tiny intra-oral camera.

And the HealthReach Dental Center for Children makes parents smile with easy payment options such as MasterCard and Visa. We'll process your insurance for you, too.

Call for an appointment today. We'll open your eyes to what a children's dental practice should be.
